

PUSHBUTTON REMOVAL LEVER LATCH

There is an uncataloged option available for Models 42, & 44 Indicators and Models 46, & 48 A, B, E, & I Switches.

The option is a converted standard extended Pushbutton/Switch with a short lever latch as shown in Figure 1.

This configuration is designed to be used in those applications where the customer desires the extended Pushbutton, but is not using edgelit or dress panels.

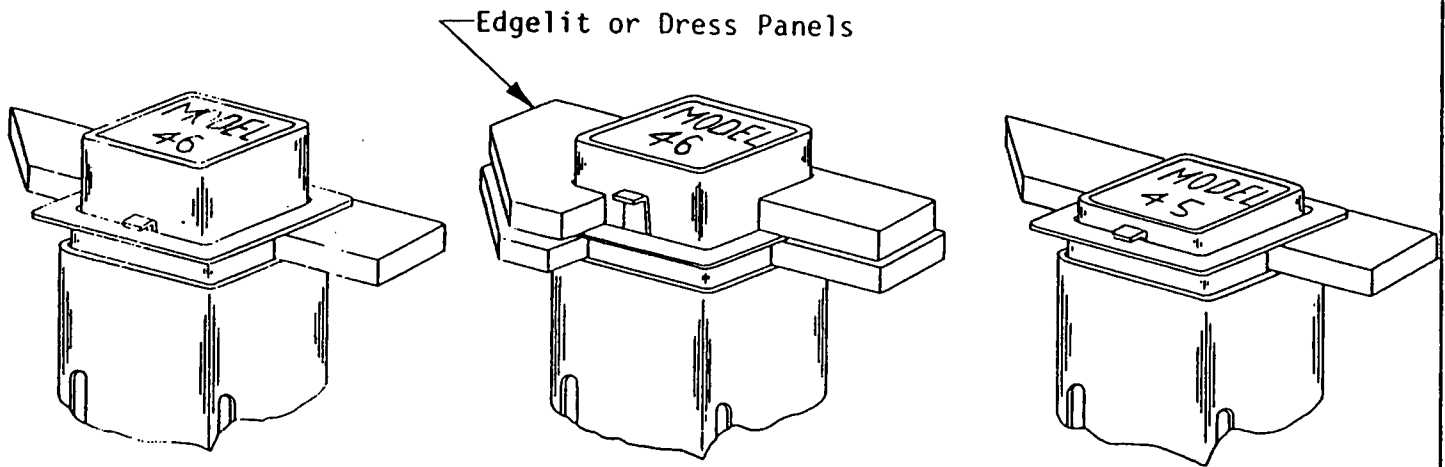

FIG. 1 Models 42, 44, 46, and 48 with /999 option

Models 42, 44, 46, and 48

Models 41, 43, 45, and 47

To specify, use the same ordering information as described in Catalog GC-4 for standard units, but suffix the part number with /999.

Example without Keying = 46S08A/999

Example with Keying = 46S08A - 51 - /999

Basic Part Number: _____
